## STOCK JUDGING SCHOOL OPENS TOMORROW

**Great West Implement Building Will be a Busy Spot for Two Weeks—Two Carloads of Stock Arrive Yesterday—Schools Popular All Along the Line—Well known Demonstrators in Attendance.**

Everything is ready for the stock judging school which will be held in Edmonton during the next two weeks in the Great West Implement company's warehouse on Fraser street. The stock arrived in the city on Saturday morning and are stalled with Taylor and Duroch's and the Alberta Livestock. The staff of judges and demonstrators are here and are enthusiastic over the success of the schools that have been held in other provinces. They say that Edmonton will have to go a hot pace to beat the other schools.

Early last fall the department of agriculture of the Province of Alberta conceived the idea of making the two day judging schools of the past of greater value to the stock breeders of the country. Accordingly it was determined to set on foot a scheme never hitherto attempted in any province in the Dominion, and so far as known any state in the union, namely, getting together two carloads of picked stock carrying them around to different suitable points and holding one week and two weeks' judging schools. Such an undertaking required no small amount of planning and preparation on the part of Mr. H. A. Craig, who had the work in charge. The proof that the work was well done is evident from the fact that on January 15th

## REV. HEUSTIS THOUGHTFUL SERMON

**Says the Church Should get out Into the World of Men and Events—It Should Cease to be an Ecclesiastical Monument and a Secular Shrine and become a Workshop.**

Rev. C. H. Heustis, pastor of the Methodist church, preached to a crowded audience last night. His subject as announced in Saturday's Bulletin, was "The Open Church." Mr. Heustis in a thoughtful and able discourse discussed the ability of the church to grapple with the problems of the state, as capital and labor, war, drunkenness, etc., taking the ground that it is the duty of the church minister not merely to feed the spiritual life, but as a means to an end, to minister to the entire, many-sided life of the individual. The church must be no longer regarded as an ecclesiastical monument or a sectarian shrine. Instead, it must get into the world and become a religious workshop, lift mankind and womanhood into a higher, nobler, healthier sphere. At the conclusion of the sermon Mr. Heustis referred more particularly to the intention of his congregation to build a large, modern edifice along the lines indicated in Saturday's Bulletin. The rapid attention of his hearers argued well for the advancement of this new religious enterprise.

### THIRTY MILLIONS STARVING.

**One Million People Will Succumb in Russia Within Three Months.**

New York, Feb. 18.—Alexis Adylin, leader of the group of toll in this country to lecture, said this morning that within the next three months one million people will be dead from starvation in Russia. Forty out of seventy nine provinces the crop was a total failure. Thirty millions of people in Russia today are practically on the point of starvation.

### AN OWEN BOURN SCANDAL.

**Father of Thirteen-Year-Old Took \$500 for His Daughter.**

Edmonton, Feb. 18.—A new development in the Owen Bourn scandal, a case developed Saturday afternoon. Mr. and Mrs. Sheik friends

of Boursa Zaitino, who is accused of abducting thirteen-year-old Josephine Berthman, say that the father of the girl consented to her coming to Toronto to live with Zaitino, upon the payment of \$500 to the father, but that the mother had objected and caused trouble.

**IN THE PRESS GALLERY**

Ottawa, Feb. 18.—Two days of political and profitable talk commenced last night when the House voted down by 86 to 53 the resolution of Mr. McCarthy, of Calgary, censuring the government for the contract made with the Robbins Irrigation company for the reclamation of 380,000 acres of semi-arid land in the vicinity of Medicine Hat. Several opposition members paired with absent Liberals and Mr. Hottel, opposition member for Quebec county, voted with the government. Mr. Bourassa, as usual, voted to condemn the project for the development of western resources.

The vote was the last expiring kick of an issue which never had enough vitality to maintain a semblance of animation and which the combined forces of the opposition press and opposition members labored vainly to galvanize into an appearance of life. Months ago it was thrashed out in the House and the issue indicated further attempts to make it do service was abandoned in despair. It was not until the House by Mr. McCarthy on Tuesday, but was a lame and halting affair by the beginning and dragged through yesterday in the tangle of a lingering death.

For the project which he invited Mr. Borden to propose. In the end of a two-hour speech he devoted fifteen minutes to an announcement of his intention to introduce a resolution to do, but neither by statement nor implication did he give suggestion of what he intended would have done. The burden of his song was that a better bargain should have been made—how he would have made the better bargain he omitted to say. His omission destroyed the only legitimate basis on which he could have assailed the present project. Granted that irrigation is desirable and that the most economic method of acquiring it is desirable, Mr. Borden has absolutely nothing to say as to how he would have achieved the purpose by a more

## CANADIAN STEAMERS FASTEST

**C. P. R. Line, Empress of Britain, Beats the Canal, Lancia, by Nineteen Hours—Express Made Trip in Five Days, Twenty-three Hours and Thirty Minutes.**

Liverpool, Feb. 18.—That the Canadian route from America to Liverpool is not only the shortest, but the best, was proven by the last voyage of the C. P. R. liner Empress of Britain, and the Consul General Lancia, the former vessel beating the New York boat by 19 hours.

The Empress made the trip from Halifax to Liverpool in five days, twenty-three hours and thirty minutes after the change in time had been deducted.

**A STORMY PASSAGE.**  
New York, Feb. 18.—The Grand Western, which arrived today from Halifax, had a stormy passage across the Atlantic. During the voyage two passengers and one of the crew died. They were buried at sea.

**RAMBOY MACDONALD SUSPICIOUS.**

**Says Agents Are Offering Immigrants Jobs When They Have No Jobs.**  
London, Feb. 18.—Ramsay MacDonald, M.P., told the central unemployed body that emigrants were being sent out by people who made a profit out of the emigration without making adequate preparations. Agents in Canada were interested financially. He promised to bring forward a case for investigation.

**DOES CALGARY NEED IT?**  
Three Thousand Pounds to Propagate the Cereal There.  
London, Feb. 18.—The Society for the Propagation of the Gospel has allocated the following: Saskatchewan, 4,000 pounds; Ap'Pelle and Calgary, 3,000 each; Rupert's Land, 1,500 pounds.

**IN THE PRESS GALLERY**

economic method. In having nothing to say as to how he would have achieved the purpose by a more

admitted that his criticism was designed not to better matters but to create political effect. While not conceding that the project was within the scope of the Irrigation Act he had no amendment to suggest. He said that the project was within the scope of the Irrigation Act he had no amendment to suggest. He said that the project was within the scope of the Irrigation Act he had no amendment to suggest.

The net result was the suspension of parliamentary business for two days. These gentlemen happen to be in succession to manufacture harassment for the consumption of English constituents by an onslaught on the country's development. That the defamatory literature thus produced at the public expense is introduced into the western constituencies by opposition candidates in the next election campaign is not strong the remote probabilities unless there gentlemen happen to be in succession to manufacture harassment for the consumption of English constituents by an onslaught on the country's development.

The case is sufficiently understood by readers of the Bulletin to need no lengthy review. The Robbins Irrigation company had made a profit in disposing of their holdings to the South Alberta Irrigation company. The principle of the first two critics is the absurdity of the government in disposing of land should stipulate that the purchaser must not sell his interests at an advance. The nonsense of the contention is apparent when it is put in language. Yet for hours opposition members urged the House to assail the government for not foreseeing the sudden advance in western land values and applying every legislative and administrative scheme to prevent owners of the particular land in question from benefiting by any such advance. The argument was thoroughly unconvincing. It is generally to the land and other resources of Canada would conserve the West this policy should not be the least objectionable for all time the distinction of having the largest unwholesome area of fertile agricultural land on earth. But while conservative the proposal was by no means "Conservative." Allusions made by a Liberal speaker to the land bestowed upon the Canadian Pacific Railway company by the late government. With more party loyalty than judgment, Mr. Amos, Conservative member from Montreal, interrupted to know if the question were permitted to sell this land at four times its cost? The cry brought down the House and spread a smile over the countenances of the "Liberal" members for North America. Realizing that the Canadian Pacific got its land for nothing

## THAW TRIAL RESUMES TODAY

**Jury Boutin has Expressed His Willingness to go on With His Duties—Dr. Evans, Eminent Alchemist, First Witness This Morning—Defence Not Nearly Through.**

New York, Feb. 18.—The trial of Harry Thaw for the murder of Stanford White will be resumed today before Judge Fitzgerald. After the funeral of his wife this afternoon, Juror Boutin expressed a willingness to go on with his duties in connection with the trial today. This announcement was a great relief to both sides, as otherwise a mistrial would likely have resulted. This would have added greatly to the expense of the trial both to the state and the family of the defendant. Dr. Evans, the eminent alchemist, will likely be the first witness when the case resumes. It is expected that the case for the defence will occupy a considerable time yet, after which Attorney Jerome will submit evidence in rebuttal.

**KRULL BROS. UNLIMITED.**

**Two Employees of the Harris Abattoir Accused of Stealing Lamb.**

Toronto, Feb. 18.—Two brothers, Robert and Homer Krull, employed by the Harris Abattoir Co., were arrested Saturday night on charges of stealing ten thousand dollars' worth of lamb and tallow. It is claimed that the brothers made large shipments during the night.

**PROF. RUTHERFORD'S SUCCESSOR**  
Dr. Howard T. Barnes will fill the Chair of Applied Science.

**IN THE PRESS GALLERY**

Montreal, Feb. 18.—The governors of McGill university have appointed Dr. Howard T. Barnes, associate professor of chemistry, as successor of Prof. Ernest Rutherford, who goes to Europe.

ing a selling price of 1c per acre would be several million times more than the cost at what prices suit of \$8 to \$12 per acre suggested a calculation even beyond the mathematical competence of the laie minister of finance.

The third cause of complaint was still more ridiculous than the first two. It included also the principle that the government should limit the price at which a purchaser should sell his land, but it, vent several

The cost of irrigating the land is an unknown item and an unknowable item until the work has actually been done. Yet the opposition leader would have had the government fix an approximate maximum price of \$5 per acre on the land, altogether regardless of whether it cost \$10 or \$25 per acre to irrigate the land. This despite the fact that Canadian Pacific irrigated land, at least as favorably as the rest of the country, is listed today at \$12 per acre.

## IRELANDS HOME RULE MEASURE

**Bill Before the Imperial House, Does Not Provide for Self Government, Is Merely a Preliminary Experiment, Subject to Enlargement Later on into Complete Autonomy.**

London, Feb. 18.—William O'Brien, member for Cork City, has outlined the impending Irish measure. It is not expected that the bill will be presented as a substitute for self-government, but only as a preliminary experiment, left open to enlargement in ten or five years. The function of the council will be administrative and financial, having control of all departments known as "Dublin Castle," with the probable exception of the constabulary and judiciary. They will look after the spending of taxes but not of their raising. The function will be legislative, though it may have to pass one stage of all land bills. The Irish representatives in the imperial parliament will remain as at present, and will be ipso facto members of the new council. An attempt will be made to give the Unionist minority adequate representation. It is estimated that the sum of at least a million sterling will be needed annually to carry on the work planned. Concerted action of a moderate number of dynamos in the party will probably carry the bill.

**ROSLAND CAR SHORTAGE.**

**Lo Roi Mine Closed One Day—Smelters Have no Coke.**

Roseland, B.C., Feb. 18.—Shortage of cars became so acute here during the past week that the Lo Roi mine closed down for a day. Coke continues scarce and the current price of the coke has risen to \$10 per ton. A three hundred horse power electric generator and dynamo have been installed at Trail and is working satisfactorily. Sixty new tanks have also been placed.

**IN THE PRESS GALLERY**

simple process of selling to a "dummy" at the stipulated price, who carried the cost at what prices suit of \$8 to \$12 per acre suggested a calculation even beyond the mathematical competence of the laie minister of finance.

The cost of irrigating the land is an unknown item and an unknowable item until the work has actually been done. Yet the opposition leader would have had the government fix an approximate maximum price of \$5 per acre on the land, altogether regardless of whether it cost \$10 or \$25 per acre to irrigate the land. This despite the fact that Canadian Pacific irrigated land, at least as favorably as the rest of the country, is listed today at \$12 per acre.

More than this, the government restricts the absolute control of the rates of the land, and by controlling water, the annual water rate is at least as important an item as the cost of the land, and in the rates at present in government control also the total expense of the settler for land and water. Canadian Pacific railway irrigated land, costing \$12 per acre, is calculated as the market equivalent of the land, and the settler for water company's land at \$5 per acre, with an annual water rate of \$1.50 per acre. A difference of 50c in the price of the land would be equivalent of \$4 per acre in the price of the land. The higher the price of the land the lower the cost of the water, and in the rates at present in government control also the total expense of the settler for land and water. Canadian Pacific railway irrigated land, costing \$12 per acre, is calculated as the market equivalent of the land, and the settler for water company's land at \$5 per acre, with an annual water rate of \$1.50 per acre.

The supreme folly of attempting to fix arbitrarily the price of the land to the settler is that no such attempt could be successful. Where such attempts have been made in other lines they have been evaded by the

## VIATNEE TRAIN JUMPS THE TRACK

**Sixty People Dead and Injured in Wreck on the New York Central at Woodlawn—Highest Type Train in the World on Highest Type Railroad is Smashed to Kindling Wood.**

New York, Feb. 17.—The White Plains and Brewster Express, a six car electric train on the Harlem division of the New York Central, jumped the track at a curve near Woodlawn road in the Bronx to night, bringing either death or injury to nearly 60 of its 150 or more passengers. The train, No. 26, left the Grand Central station at 4:15 o'clock, crowded by two heavy electric motors and loaded with a massive crowd on their way home. It was made up of a combination baggage and smoking car and five passenger coaches. After stopping at 128th st. the train was scheduled to run as an express to White Plains. At Woodlawn road the four tracks run through a heavy cut and made a sharp curve. When the train reached the curve, according to the passengers it was running at a very high speed, estimated by some at 60 miles an hour. Both motors and the smoking car swung sadly around the curve but the cars following left the rails and plunging over on their sides with a terrific crash, tore up the tracks and after sliding a hundred yards collapsed in a mass. Of those instantly killed, by far the greater number were women. Many were mangled beyond recognition. Ambulances and surgeons from every hospital in the Bronx and Bellevue responded to hurried calls, as did two fire companies and the police reserves from many stations. Many of the bodies were quickly extricated from the wreckage, while others were so pinned that they could not be taken out for some time. Those most seriously injured were hurried to hospitals, while the corner took charge of the dead as fast as their bodies were recovered. Fire broke out in the

the overturned cars, but the flames were quickly extinguished, and the bodies were taken to the hospital. The train was the highest type in the world on the highest type railroad is smashed to kindling wood.

The cause of the wreck was not officially determined tonight. At the Grand Central station, there was an inclination to lay the blame for the accident to spreading rails, but later it was believed that the state of the first passenger coach broke, throwing the cars from the track.

**PICKPOCKETS CAPTURED**  
Police Land a Couple of the Light-Fingered Gentry who Claim to Have Been Broke—Caught With the Plunder, They Own up to the Charge—Preliminary Hearing Tonight.

Living to a large extent by the plunder which they steal from unsuspecting men with whom they came in contact two characters named W. J. Sloan and Charles W. Smith, each about twenty-five years of age, were arrested last night and are now at the police station awaiting trial before Police Magistrate Cowan.

From information received it appears they are from Brockville, Ont., and have been in the city about six weeks. They have been boarding at the house of H. H. Halliday, on Clara street, and in their room has been found a quantity of goods which it is thought has also been secured by them.

Their arrest was brought about last night by Alexander Henderson, a former police officer, who left the force some time ago. Henderson, who was in the city about six weeks, was attempting to sell him a silver watch, but he became suspicious. After the watch, it appears, is the property of one W. J. Smith, from whom it was taken. He was in a state of intoxication.

After further investigation there has been secured. Their room number and other articles, with the lanyard of which they will also be charged. They include a fur coat taken from the chest of police, a gold ring supposed to be the property of George Kennedy, who came to the city on Saturday with two silver rings and was afterwards charged the results of his bargain; a bracelet owned by a girl at the house where the young men board, and other articles the owners of which have not yet been located.

Both Henderson and Patterson are well known to the police and would not be suspected of being pickpockets had they not admitted the fact of their own late career in the watch and a rag from Henderson's inventory.

# A HERO'S SKETCH.

An English painter in M. A. P. says: "The other day I met Baden-Powell, who told me that he and Kipling had come over from South Africa together. Baden-Powell, as I well know, thinks himself something of an artist. He is an enthusiastic member of the London Sketch club, and to see him there struggling with pencil and water colors, you would think he cared more for artistic than military renowns."

"Well, what do you think?" said he. "I am the recipient of a great honor. Kipling has written a poem on one of my pictures."

"Splendid," I said. "I congratulate you." It is certainly a great honor for a picture of yours to have stirred the muse of Rudyard Kipling. Where can one see the poem?

"I have got it here," said Baden-Powell, and he took from his pocket a paper on which two malleable verses were written. One of them read as follows: "I don't remember the other one."

"This is the ocean bright and blue With the Dunedin Castle looming through; But if you turn it upside-down It is the valley so bright and brown."

# INTERESTING CHURCH CALENDAR.

Another instance of eastern ways and conveniences coming West is the church calendar now being distributed at St. Joachim's church to members of the congregation.

This contains a calendar for the year, the various rules and regulations governing the discipline of the church; brief explanation of the various ceremonies; duties of Catholics generally and local parish rules.

An interesting page is that giving the teaching of the Catholic church concerning the sin of Drunkenness. This is the more interesting because this church does not often take part in wide temperance organizations, but confines its work to the individual and the congregation. The various clauses prefaced with "whoever" are so strongly denunciatory that one understands why a Father Mathew with these pronouncements behind him could have effected such wide and lasting reforms in this direction.

The illustrations in the calendar include portraits of the stately Bishop Grindin, the predecessor of Bishop Leclerc at St. Albert, of the present co-adjutor, of Father Lacombe, the interesting old missionary, Father Lefebvre, Father Therien and Father Meunier—a group of ancient Westerners.

On Saturday Miss Grace Robertson was again the guest of honor at a delightful shower-in. Miss Edith Webster being the hostess on the occasion. Miss Robertson was presented as a member of the tea with a very pretty box decorated with pyrotechny and containing numerous dainty handkerchiefs showered there by her girl friends.

In the tea-room, bright with daffodils and ferns, Mrs. Cooper presided at the tea-table while Mrs. Tumble and Mrs. Patten were the hosts. Miss Edith Webster, Miss Dorothy Robertson, Miss Grace Robertson and Miss Florence Cameron assisted in passing the refreshments. Some of the guests were Mrs. McPherson, Mrs. Charlesworth, Mrs. Helen, Mrs. M. J. McLeod, Mrs. Robb, Mrs. Allan Fraser, the Misses McQuinn, Miss Froude, Miss McKenna, Miss Woodhouse, Miss Leach, the Misses MacCauley.

Mrs. McCall was the hostess at a large and enjoyable tea Saturday afternoon. Mrs. McCall was assisted in receiving by Mrs. McQuinn and Miss Jean McCall. There was a pretty gown of champagne color with dainty black lace trimmings. Miss McCall was prettily attired in a gown of white with blue and silver accents their mother graciously in serving the refreshments.

## Stock Judges

(Continued from p. 1)

The acceptance of the new breed of animals who have made their mark on the various livestock shows and fairs.

## THE HORSES

The horses which two purchases belonging to Mr. R. C. Reid, Deer. They were used in Illinois and purchased by the McMillans at the end of last year. In a fine black, two years old, a Calypso colt. He stood second at Iowa state fair last fall, while the other one, called a dark grey, was first in a large class of American horses. They are both well bred from such stock as Danes, Cecos and Island.

There are four Cheshires, Lord Stewart is a handsome brown of good draught type, well paid up. The one is owned by J. J. McMillan of Deer. The other three are owned by Mr. Reid. The one is a mare that will stand close and good action. The other two are geldings, being of the right type and good action. The one is a grey horse, being bred by Pearson out of Jesse Clement and trained her line to the great horse Danes.

Next comes a fine pair of horses purchased from Rawlinson Bros. Calgary. They were both sold by Commodore McMillan and can be traced on the dam's side to the famous Robin Adair and Princess.

## CATTLE

Among the short horns there is a Crispin General, owned by A. P. McGill of Lacrosse. This bull is the champion of Alberta. He is owned by Stanley L. and has the blood of Harrington. There is a great deal of interest in him. Among the Shorthorn cowboys there are very good specimens. The one is a Lady of the Glen and Murel. Both are very good specimens. ## BASEBALL AT VANCOUVER.

\$10,000 Stock Company Will Handle Team.

Professional baseball of the Northwestern league brand will be played in Vancouver this summer for certain. Official announcement to this effect was made yesterday by the Vancouver Baseball Club, Ltd., which has just been organized, and is composed of a number of prominent local sportsmen and sports enthusiasts.

The organization of the club was completed yesterday and the incorporation will be applied for at once. The officers of the new concern are: G. Clayton Leonard, president; W. D. Haywood, vice-president; Harold C. Clarke, second vice-president; O. H. Atkins, treasurer; Thomas A. Tully, secretary; James W. Evans, league director and manager.

Capital necessary to secure a franchise in the Northwestern league and secure a first class team for Vancouver will not be lacking. Although only about \$4,000 was really required the Vancouver Baseball Club, Ltd., will be incorporated with a capital of \$10,000, practically all of which is subscribed. A lease of Recreation park for ball purposes has already been secured and Manager J. W. Evans already has practically signed a number of good players for Vancouver.

## ROOSEVELT WANTS BISON.

Montreal, Feb. 18.—President Roosevelt is now a duly accredited member of the North American Fish and Game Protective Association. His application for membership was received at the convention of the association, which closed at Quebec recently, and naturally he was admitted to membership without much questioning as to his qualification. In his letter of application the President of the United States advocated the taking of every precaution to preserve the herd of wild buffalo now roving in the Peace River district. The President pointed out that this was the only herd of pure blooded American bison in existence and asked that the British Columbia and Alberta governments be memorialized to take the necessary steps to secure their preservation.

JAPS MAKING GOOD ATHLETES. Ithaca, N.Y., February 18.—That the Japanese and Chinese students in the mission schools indulge in all kinds of athletics and that some of their records would compare favorably with those of the American college athletes was one of the interesting remarks made by Professor G. B. Palmer, of the St. John's University, Shanghai, China, to some Cornell students. He said that athletics were on the boom in the east, and

that judging from the records recently made the Americans may find their athletic prestige endangered by a real yellow athletic peril.

In speaking of the athletics at St. John's, the professor said that there was an intercollegiate athletic association in existence there and that track, baseball and Association football games had been organized. The track teams are run on the same principle as in America. The 100 yards race was won in 2 min. 10 sec.; the half mile in 2 min. 10 sec. The record for the broad jump was 21 feet.

## SUMMER STRIKES MACLEOD

Baseball and Football Matches Played Saturday

MacLeod, Feb. 18.—A football game was played yesterday between the public school and collegiate teams, resulting in a win for the public school boys.

A baseball game was played this afternoon, between seniors and visitors, the home team winning. A large crowd witnessed the game and good playing on both sides. The ladies and children were in summer costumes. The weather is summer-like and the square was dry and warm.

## WINNIPEG'S BONSPIEL TERMINATES

Winnipeg, Feb. 18.—The big Winnipeg bonspiel of 1918 is now a matter of history, the last game having been played Saturday night. It was a battle royal. The contest was for the Duval Trophy, regarded as the premier open event of the season. Two Winnipeg teams, Braden and Russell, both of the Athletic club, met in the final and after twelve ends of play the score stood twelve all. In the extra Braden got one but no closer was the game that it took the umpire to decide who should be declared winner of the event. The other events decided Saturday were the Veterans, Tettey Tea and Alice Ribben. Braden of the Thistles won the Tettey Tea, the afternoon by default. Whalen of the Thistles won the Alice Ribben. In the Blue Bonspiel, met at the former rink, the Victoria team, led by the former rink, won the Victoria trophy. Aldous, of the Ashtabula, and Sinclair, of the Thistles, met the former, withing out after a very close game by one point. The final score was 12-3. Many of the curlers left for their homes Saturday night.
